- NOTE**

Please read this manual and follow its instructions carefully. To emphasize special information, the symbol and the words **WARNING**, **CAUTION** and **NOTE** have special meanings. Pay special attention to the messages highlighted by these signal words:

NOTE: Indicates special information to make maintenance easier or instructions clearer.

WARNING

Indicates potential hazard that could result in death or injury.

CAUTION

Indicates potential hazard that could result in vehicle damage.

GENUINE SUZUKI ACCESSORIES

Installation

- 1.) Locate Drive Shaft.
- 2.) Feed the provided #24 hose clamp through the tab provided on the small section of the drive shaft cover. Place front portion of drive shaft cover over drive shaft. Do not tighten the hose clamp. (See Figure #1)
- 3.) Place the #32 hose clamp onto the rear portion of the drive shaft. (See Figure #2)
- 4.) Place the drive shaft cover over the drive shaft. Position the #32 hose clamp between the drive shaft cover and cover fastening tab, and approximately 1-2" forward of differential mounting nuts. (see Figure #3)
- 5.) Using a flat head screwdriver, tighten the hose clamps.

NOTE: Periodically check the tightness of the mounting hardware, and tighten if needed.
