

COASTAL CAROLINA RETRIEVER KENNELS

About Us

Our kennels and training property is on 55 acres. We have several thousand acres of private land with exclusive right for training. From rolling hayfields to large tracts of farm land with both pastures and mixed cover fields with many ponds and ditches. Several of these properties are maintained just for training. Technical training ponds have been dug with points, dikes, and islands to challenge the most experienced retriever.

We breed several litters of labs each year. We also have several stud dogs with various A.K.C. titles and exceptional pedigrees. We also try to keep several started dogs available for sale in various stages of training for both the gun dog enthusiast, to hunt test, to derby or qualifying trial dogs. We will work with each owner to tune their expectations to exactly their wishes. We are there to answer questions as needed.

Puppy Socialization Program

8 weeks old on house breaking, crate training, general sights and sounds of the world. In the field with us daily with lots of fun retrieves. For the person without the time to bring out all the basic instincts of the pup.

Gun Dog Program Limited Openings

Basics, force fetching, steadying to gun, handling on blinds length of time depends on level owner desires.

Field Trial & Hunt Test Program

Most advanced training level for the dog. We specialize in the fundamentals of young dog work for both junior and senior hunter also derby and Q work. We run dogs in all stakes for both hunt test and field trials. We will work with owners for evaluation of competition dogs.

Rates
