Magical Soaps

Ritual Baths have been a part of human culture for centuries. In 425 BC Herodotus wrote of the bathing customs of the Scythians, who placed certain fruits on a fire and inhaled the fumes during their baths. Special baths ritual like this have been employed and enjoyed by nearly every human culture.

Water forms the basis of all life. It captures and holds the essences and vibrations characteristics of other substances. Warm water has a relaxing and sedative effect. Think how good it feels to have a hot bath or shower after a long, hard day. Baths can shift the frame of mind and the rhythm of the psyche. A hot bath eases tension and stress replacing it with relaxation and peace. Creative is aroused and often you gain new insight to your day to day preambles.

My Magical soaps are made with special blends of herbal oils whose vibrations are in tone with the soap's name. With these soaps you can play Merlin of the magical waters, Goddess Diana of the hunt or just be a flower child. For those who practice new age rituals, taking a bath before a ritual is a great way to bring your being into the natural rhythms of the ritual you are about to perform.

All Magical Soaps are made one at a time with low melt glycerine. No two soaps are ever exactly alike. Each type of soap has a special blend of magical oils with matching colors. The colors are added as curls in a clear soap base. Many of them have glitter or mica. To display their unique beauty, the soaps are wrapped in clear cellophane with a product description on the back of the soap.

Herbal Soaps

Herbal soaps have been gaining in popularity over the last few years and may be the perfect addition to your store. My herbal soaps are perfect for the person who wants not only an all natural bar of soap but also the benefits of selected herbs.

These bars are made with a high melt glycerine soap which last longer than the low melt glycerine, but is not made with all the beautiful colors and patterns, glitter and mica. The soaps are a solid color. The scent is not as strong and some herbs will have very little scent at all. They are all made with an infusion of the herb(s) or resin(s) and some also contain essential oil(s) and powdered or ground herb(s) or resin(s). They are have a wrapping around the soap that contains a picture of the plant, the name of the herb and a description of its benefits. Soaps that are a mixture of different herbs may be two toned. I have listed some blends, but custom blends are always welcomed. These soaps may be ordered in any of the available molds. The soaps are wrapped in cellophane with a wrapper around the bar that displays the herb(s) name, a picture and a description the herb's benefits.
