Families of Galeana, Nuevo Leon, Mexico

Volume Four

Volume four of this series contains marriage information from 500 marriage records found on film 728340 (matrimonios 1718-1836). These marriages occurred in the time span of August 1816 to September 1826. These marriages are found on images 360-446. Basic information from the marriage records is presented along with other information gathered in an attempt to present two generation descendant reports. Most of the non-marriage record information presented was gathered using the FamilySearch.org database index.

I think my interpretations, as presented in this volume, should be very helpful for those that view the world in black and white. They can also help those that understand that the truth includes many shades of gray. You are welcomed to view my work as indisputable. I do not. Want to see the record with your own eyes? Use the provided image numbers to quickly locate the original records on the internet.

I want you to find any and or all of these church marriage records. The image number followed by a dash and serial number for each record is given with the hope that you can locate them with little effort. It should be easy if you have used the online images before.
