DMC SUBSTITUTIONS FOR MY CHARTS

These are conversions to DMC from Weeks, Sampler Threads & Needle Necessities for my charts. They are the colors that I have chosen as approximate matches if you decide not to use the overdyed threads. Some overdyed flosses have no substitution. Substitutions listed as two numbers indicates a blended needle (use one strand of each number). If you use these substitutions your stitched piece will not look the same as the stitched model. The charts are listed in alphabetical order. Any charts released after January 2003 will include DMC conversions.
