

# mtDNA Ancestors of Raymundo Arturo LINARES Extending 11 Generations to Josefa Gonzalez

By Crispin.Rendon@gmail.com

Raymundo Arturo Linares is the mtDNA descendant of Josefa Gonzalez (spouse of Capitan Alonso Leon). Josefa Gonzalez is my 9th great grandmother. Our kindred database has 35,458 of her descendants. I had parents for her but without a primary source I have deleted them from the database. This report is part of a citizen science project exploring our kindred group ancestry with both traditional and genetic genealogy. Sources and some links are provided to show the evidence used to establish the unbroken mtDNA line.
