

Emethy®

"Electrically Alive!"

Emethy (electro medicinal energy therapy) is a therapeutic method that is electrically alive!

- Emethy facilitates balance at the body's fundamental level, entering our delicate electrical system within moments. With this extraordinary therapy no actual substance enters the body to leave a chemical residue so there are NO side effects . Nor can an overdose be taken, as the body regulates the PERFECT amount of energy necessary each time.
- Emethy's unique formulas are produced by a *proprietary* method of activating herbs, primarily wild-crafted and organic, along with minerals and other natural substances .
- Emethy is easy to use. The energy is transmitted to the user's energy field through the action of water. Simply hold the vial in a cup of water.

The human body is composed of intricate, electrical constructs that can be measured and mapped with proper equipment. Medical professionals primarily focus on the chemical aspect of the body, because it is the method they were taught in medical school. However, there is an ever changing energy that exists beyond the physical sphere, a fundamental life force that energizes mind and matter and is organized from the highest level. Energy patterns are formed from a sea of vibrating energy - a wireless "electrical" power which is inherent in all living matter.

Those who truly want to understand "electrical" from a different perspective must be ready to expand their consciousness from what they have learned or assume to be true.

An electrical current or life force is present in all living things. This power is different from electricity found in a house. Our bodies are alive through an elaborate electrical network. An imbalance in this electrical field results in illness which in turn creates mental, emotional and physical disturbances. Maintaining and preserving our electrical energy field is KEY to health. Giving the body what it needs electrically allows everything else to fall into place. Working with our delicate electrical system, using non invasive tools, sets things in motion for ultimate health.

Each Emethy®Formula lasts ONE Full Year with UNLIMITED use!
Good for animals and plants too!

Emethy works with the subtle energy fields. The benefits described above are based on technical references and the consistent reports of Emethy users. Emethy formulas are for experimental research purposes only. No claims are made. Descriptions contain references to subtle energies only and not actual physical conditions, and are not intended to be a diagnosis or treatment. It is the individual's right to freely choose the type and source of health care She/He deems appropriate. Practicing such health freedom requires the responsibility of acquiring valid health information and skills. In addition, it is the individual's responsibility to recognize when to seek professional health care. Although people have reported tangible results using Emethy, there are no promises to produce any certain results or to offer refunds.
