EMETHY'S OMIN

Emethy's unique formulation of 72 ionic Minerals and Fulvic Acid

OMIN is a supercharged Emethy remedy containing 72 ionic minerals and Shilajit- fulvic acid. Ancient Sanskrit holy texts, over 3,000 years old, make reference to a mysterious substance called Shilajit, which they describe as the destroyer of weakness. The sacred substance was prescribed for thousands of years for many different health problems and became a powerful tool in Ayurvedic Medicine. Shilajit is formed through the long-term process of humification of certain plant materials and the subsequent compression by layers of rock. Known as a miracle mineral, Shilajit is made up of a large variety of minerals, with an abundance of assets not found in other minerals. It is extremely valuable in acting as a chelator for unwanted calcium deposits, a protector against toxic heavy metals and a great brain booster. Fulvic acid balances and energizes cell life and begins its healing and restorative process upon first contact. Acting as a "free-radical" scavenger, Shilajit's fulvic acid supplies vital electrolytes, enhances and transports nutrients, catalyzes enzyme reactions, increases assimilation, stimulates metabolism, chelates and changes inorganic minerals into organic complex minerals. It modifies the damage of toxic compounds such as heavy metals and free radicals increasing the permeability of digestive, circulatory, and cell membranes.

Fulvic acids consist of an immense arsenal and array of potent antioxidants, free-radical scavengers, nutrients, enzymes, hormones, amino acids, antibiotics, antivirals, and antifungals. Fulvic Acids greatly enhance the bioavailability of the essential 72 trace minerals.

The foods we eat, over-processed and void of many essential nutrients, are grown in soils that have been over-planted and saturated with synthetic fertilizers and pesticides. Almost all of the degenerative diseases- arthritis, osteoporosis, dental problems, hypertension, heart disease, cancer, bone spurs, kidney stones, muscular dystrophy, carpal tunnel syndrome, cataracts, Alzheimer's disease, and the list could go on--are either directly or indirectly related to mineral deficiencies. Because of intensive farming 99 percent of Americans are deficient in minerals and trace elements. The 72 miraculous minerals with Shilajit have been reported to be supremely effective for preventing the bird flu both in chickens and in people.

Benefits Include:

Increase energy, Immune protection, anti aging effects, increased circulation, restful sleep, renewed hair growth, reduced arthritic pain, less anxiety, enhanced nutrient transportation and absorption, improved digestion, assimilation and elimination and Re-hydration of body fluids and cells.
