To Whom it May Concern:

I am writing this letter on behalf of Kris Hall who was a flight attendant for Executive Jet Management's shuttle operation. The purpose of my letter is to offer my recommendation of employment for Kris as a flight attendant or really, any other related field.

I was Director of Executive Jet Management's shuttle operation until I accepted another position in the Aviation Industry. While Director, I was responsible for the operation of seven aircraft and their crews, located at four different locations. Kris was a flight attendant on the Embraer 135 aircraft, located at Mather Field, Ca. during this time, and was instrumental in the success of this operation.

Kris is a multi-talented individual who was perfect for her job right from the beginning. She came to us during a time of expanding operations, and brought with her an abundance of knowledge and experience that was really needed. In addition to her knowledge and experience, she had a warmness, and genuine enthusiasm for her job that set a great example for our younger and less experienced employees. These personal attributes, combined with her professional approach to all her duties, made her an immediate favorite of passengers and crew members alike.

I also consider Kris a "Peace Maker" which is important to any organization. Her impeccable integrity along with her diplomatic and communicative skills were a big help in smoothing some of the rough edges of scheduling and duty requirements that came up on occasions. I valued her wise counsel.

The bottom line is this. Kris is a valuable asset to whatever organization she is associated with. She is intelligent, ambitious and gets things done. She is a true professional with a steadfast value system that shows. I highly recommend Kris for employment. Please feel free to contact me if necessary.

Sincerely,

Phil VanderWilt

Former Director, Shuttle Operations, EJM
