ABOUT THE DANCES... Circling to share and explore, uplift and celebrate the essential unity of the people of all spiritual traditions, we embody prayer through dance, walk, and chant. For more than 40 years in gatherings around the world the Dances of Universal Peace are a form of circle dance utilizing movement and sacred phrases from the world's spiritual traditions. Live music and simple steps joyfully touch the spiritual essence within ourselves and the unity of all beings.

No musical or dance experience of any kind is required and everyone is welcome!
