Ft Lauderdale FL 33308

Dear Neighbor,

Now that we all are citizens of LBTS, its EXTREMELY important that we be fairly represented on LBTS's five person Board. It is the Board's responsibility for the authorization and execution of the provisions of the Resolution we made with the town as a condition of our being annexed.

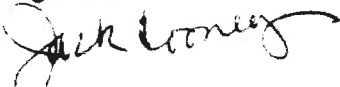

Currently all these provisions are either in progress or about to be carried out. FPL expects to complete the undergrounding of all power and utility lines by this April. Plans for sewers have been approved and will follow, then land and streetscaping along A1A.

To best insure that our needs continue to be handled we need your support by electing candidates that will offer continual support of our Resolution and insure that they are carried out.

There are two seats open for Commissioners. We strongly recommend our own Chuck Clark as a new commissioner. Should you choose to vote for the other open seat, our recommendation is John Yanni.

We need your vote so we urge you to go to the polls on March 9th and support our slate.

Regards,

Jack Cooney
Treasurer, NBCA PAC
