

*To: Committee Chairman Henry Waxman,  
30th District of California  
and all members of the 111th Congress*

**RE: H.R. 2454 (Cap & Trade)  
and**

# **Your Audacity of Arrogance**

*Read slowly so you understand.*

On Friday, May 22nd, 2009, a speed reader was hired at the expense of tax payers to read 950 pages of the Cap & Trade Bill (H.R. 2454). In doing so, you spent our money to make a mockery of our system. You insulted the intelligence of the people of the United States.

Your audacity of arrogance is neither funny or clever. It is simply more proof of your intent to keep THE PEOPLE, (your employers) from knowing the facts and consequences of your actions. We, the citizens of the United States of America hold you accountable for your total lack of values and principles as set forth by our founding fathers.

**We The People are FED UP with your lack of character.**

**We The People are FED UP with your lack of transparency.**

**We The People are FED UP with your dishonesty.**

**We The People are FED UP with Congress playing games with our lives.**

*I oppose H.R. 2454. I resent yet another bill being pushed through congress without first being read and understood by our representatives in Washington.*

*You are not serving the tax payers of this nation in good faith.*

*I will vote in the 2010 elections to rectify this situation.*
