

To:
The President of the United States: Barack H. Obama
and
All Members of the 111th Congress

RE: HR 3200 America's Affordable Health Choices Act of 2009
and Your:

Audacity of Elitism

*Candidate Barack Obama promised that under his health-care proposal
"You'll be able to get the same kind of coverage that members of Congress give themselves."*

Currently, Congress is *exempt* from the proposed reforms in our Healthcare system.

If it is so wonderful....why?

If it isn't good enough for Congress, it isn't good enough for us.

We The People propose:

Congress and their families must *first* accept and use this new healthcare system.
After 10 years of using the plan, if it works well for Congress and their families,
they may come to We The People and propose this healthcare system again.

Until then, the answer remains

NO.

Keep your mitts OFF our healthcare system.
