

A Letter For Liberty

From

To All Members Of The 111th Congress of the United States

*If you ever accomplish another thing in your term of office, you must STOP ALL DEFICIT SPENDING.
Decide your true purpose and duty and stand up with courage. The time is NOW.*

Billions have been spent. Trillions are slated to be spent in the name of “emergency”. The real emergency facing this nation is the lack of courageous leaders standing up for The People. We call on your courage to do what is right instead of what is politically expedient.

Your template for courage is Inspector General Gerald Walpin. He is a living example of the values and principles of our Founding Fathers. We are proud of this man and want leaders just like him. Why? Because he understood his purpose and duty and proved himself a true steward of the peoples’ best interest. Unfortunately, his moral and political courage led to his termination and to his character being smeared. Is this what you fear? Is this why you lack the courage to stand up for what is right? If so, you are not a leader. *Leadership takes courage.*

The man who is Gerald Walpin gives me hope. Are you like him? If you are, stand up so we know *who* you are. When you prove to be a leader of moral and political courage, we will not fire you or smear your name. You can count on us to stand with you.

It is time to decide your purpose and duty. Is it to special interest? To yourself? Or to the People of this Republic?

We have lost faith that your duty is to the People. It can only be restored when you gain the moral and political courage to shine beams of light into the dark places of our government. The dirt and spider webs are contaminating our system and are eroding our Republic. Is this your legacy? Your place in history?

Stand Up against deficit spending. When we have a surplus, then we’ll decide where to spend it.

Stand Up as good stewards of the Peoples’ money. *Audit the FED, Investigate ACORN* and drain *your* swamp. Put a “Gerald Walpin” in charge.

In a time when masters of courage are needed, we find only masters of manipulation. For example, your duty in the US War Funding Bill was to fund our military. *Shine a light on the bill and what is hiding in the darkness?* Five billion dollars for the IMF to distribute stimulus spending to developing countries. What was your purpose? To manipulate the people into thinking a vote against it was a vote *against* our troops. This common shell game dishonors our military and insults the intelligence of the American people. Where is the sacred honor in your leadership?

Look at our Declaration of Independence and you will see an extraordinary act of leadership! It is signed with a pledge. The signers say, “*We mutually pledge to each other our lives, our fortunes and our sacred honor.*” They pledged their individual lives, their individual fortunes, and their individual honor. The signers of this noble Declaration remind me of Gerald Walpin. Do they remind you of yourself?

We love our Country! We feel we love our Country more than you! We want you to prove us wrong. We need more than your lip service. We must have your action. Now is the time to decide your true purpose and duty. We seek leaders like Gerald Walpin. Because of him, we know honorable and courageous leaders are not yet extinct. We The People are uniting to fight for their survival, so that we may ensure our own.

Signed:
