

A Letter For Liberty

From

**To: The President Of The United States Of America
And members of the 111th Congress**

I, and my fellow countrymen and women, are gravely concerned that you have overstepped your authority by rushing into law items that you admit you did not read. Your spending is un-sustainable and unwarranted. By forcibly taking over many financial institutions and auto manufacturers, you have endangered the free market system you claim to protect.

Your unprecedented partnership with bias media outlets, General Electric and corrupt unions is favoritism at best and should be thoroughly investigated. All violations should be prosecuted to the fullest extent of the law.

Your administration is currently trying to railroad through Cap and Trade and Nationalized Health Care. The implications of the science that you proclaim to be accurate is unproven and would not be admissible in a court of law but you continue to push them through. Why ?

It has been alleged that your administration is using threats to intimidate those you feel the need to control. I remind you that such strong arm tactics are clear and serious violations of the laws of the United States.

It is my opinion that you, Mr. President, along with the 111th Congress are not acting in the best interest of the United States of America. You are in fact spreading the wealth around (as you call it) only to those who have supported you in the past.

We, the American People, will not stand idly by while you dismantle the Rule of Law.

Mr. President, members of the House and Senate, We The People put you on notice:

We The People, will not sit quietly by and let you destroy our country.

We The People, cannot afford your out- of- control spending.

We The People, will be heard loud and clear.

We The People, will restore this great Republic to her former glory.

We The People, will vote you out of office.

Signed:
