

SERENDIPITY FARM

Serendipity Farm is a family run farm that practices sustainable, organic agriculture. Our goal is to build a working sustainable model combining agriculture, recreation and conservation. We board horses, grow produce, fruit, herbs and flowers, sell eggs and host workshops. Come visit us at the farm tour:

- Tour our growing areas, stables, check out our new compost facility, and see our new heavy use protection areas for horses.
- Enjoy a cup of soup while you watch the festivities.
- We will be giving horse rides, and at 2:00 we will have a chicken herding competition - complete with prizes. Bring a team of 2-3 people (no border collies allowed!) and see if you can outsmart our chickens!
- We will have produce, gifts, jams, etc for sale and we'll also be selling fresh farm soup and bread.
