

Seminole / Lake Mary Camera Club

The Seminole Lake Mary Photo Club meets every second Wednesday of each month, year around, in the Lake Mary Community Center. (In case you aren't familiar with the city, it's halfway between Orlando and Daytona Beach on I-4) The club has been in existence for over a dozen years, and meetings are informal, consisting of critiques of pictures (any format, any method) brought in by members, as well as discussions of problems and techniques of photography, and sometimes a talk on a particular aspect of photography. There is a website: <http://home.earthlink.net/~silh/slmcc1.htm> at which you can get information on meetings, location, and perhaps what's going on. It is an "open" club, and visitors are always welcome. The club serves Seminole, Orange, and Volusia Counties.
