

# Meet The Master Trader Whose Pen Is As Mighty As His Stock Picks

The inventor of the principle "making stagflation make you money" is also the only investment publisher in the world to offer his subscribers a one-of-a-kind guarantee.

Courtney Smith firmly believes that when it comes to investing, losing money is not an option. Rather than teach his newsletter subscribers what he thinks will work, Courtney has been showing thousands of investors how to craft a portfolio that pulls profit by carefully **analyzing, pinpointing and duplicating** his own money-making trading secrets. He is the only investment manager in the world to offer a triple no-risk guarantee to the readers of his newest in a long-line of successful investment newsletters, *Courtney Smith's Stock Trading Letter*.

**For thirty-five years, investors have been looking over the shoulder of this financial management advisor** because of his proven track record in stocks, global markets and futures. The former weekly columnist for CBSMarketWatch.com is the only investment manager ever to have managed a top-ranked hedge fund (Altvest) and a top-ranked mutual fund (Lipper), written top-ranked stock- (Hulbert) and top-ranked futures (CTCT) newsletters, and was a top-ranked market timer (Timer Digest).

Previously, Courtney held various executive positions in the financial world including: Chief Investment Strategist of Orbitex Management, Inc. (\$5B in mutual funds), Chief Executive Office of Quantum Financial Services, Inc. (\$100M futures and stock brokerage), First Vice President and Treasurer of the New York branch of Swiss bank Banca della Svizzera Italiana, Group Vice President in charge of Financial Derivatives at Banque Paribas, New York, and held Vice President and Director of Research and Commercial Services titles for Pain Webber, Inc.

Since 1990, Courtney has been the president of his own firm. Courtney Smith & Co. provides investment management services for individuals and institutions. He is also the CEO and Chairman of Greater China Technology, Inc.

The energetic entrepreneur recently launched The Investment Mentoring Institute, an online educational centre at [www.investmentmentoringinstitute.com](http://www.investmentmentoringinstitute.com). The school's power-packed curriculum is based on Courtney's specific, successful principles used in stocks, futures and foreign exchange.

**Once asked if it's immoral to make money so easily, Courtney replied, "I hate to lose money. It's against my religion."**

Courtney's current e-book *How To Profit From The Current Morass Of Stagflation* reveals what the coming close of this decade is going to bring to the market, including the Fed's role and how you can profit from it.

Picking up where Harry Schultz left off, Courtney makes the information as easy to act upon for the first-time investor as for a seasoned trader.

## The Mentor's Mentor

"What I like about Courtney Smith's information is that his unique ideas and insights exemplify perfectly what I call the 'Spend 10 minutes with this and walk away' rule. That's why I not only follow his investment advice to the penny, I also feature Courtney to share the stage with me, teaching his profit-making strategies to thousands of my *Millionaire Mind* students worldwide. His 'actionable information' changes each attendee's financial future forever."

-- **T. Harv Eker**, author of *The New York Times* #1 bestseller *Secrets of the Millionaire Mind*.

Author/Trader Courtney Smith is tapped as one of the best Gold and Bond market timers in the country

Newsletter Index: Courtney Smith

Editor, *Wall Street Winners*

"Best performing newsletter 5 years,"  
-Hulbert
